## LUMBER PRICES FIRM

### NO SLUMP POSSIBLE IN NEAR FUTURE IS PRESENT OUTLOOK

Although it has been stated that one large lumber company in Los Angeles predicted an early slump in prices, Glendale dealers can see no prospects of so happy a consummation, even by the end of the year, and a leading trade journal devoted to architecture, engineering, contracting and building coincides with this view, stating that all the redwood mills have their output sold far ahead, and the demand for fir lumber is just now accentuated by delayed buying. Prices of lath, which were abnormally forced up to unheard-of figures by temporary scarcity of stocks have receded and will soon be in line with other classes of building materials. Production was so stimulated by the scarcity that the supply now equals the demand. Another result of the acute lath shortage was the throwing on the market of much inferior stuff, deficient both in width and thickness and varying in these particulars so that a smooth wall could not be made by using them. It is said that the Southern California market has on hand more than five million of such lath that in ordinary times could not be marketed at any price. Much of it is cut from dead timber and breaks very easily. But really good lath can now be had at prices that are in reason, so there is no excuse for any dealer to sell the inferior product.

While a great slump in home building is reported in Los Angeles, there is no indication of any letup in Glendale. The permits are holding up in number this month, but there are none as yet for large sums as was the case last month, four alone amounting to $185,000. Under these conditions of course no slump in prices of materials can be expected.

### OUTLAW STRIKE OF R. R. MEN ABOUT ENDED

People living along the Southern Pacific tracks in Glendale were rejoiced last Saturday at seeing two freight trains, one in the forenoon and the other along toward evening, the first in several days. This showed that the outlaw strike which had held up all freight and many passenger trains for more than a week was broken at last, before serious consequences had been entailed in the way of a food shortage.

### MISS FOLZ GOES EAST

Miss Henrietta Folz, of 350 Myrtle street, is leaving Sunday, April 25th, for New York City, via New Orleans and Washington, D. C. After spending a week in the national capital she will go to Dayton, Ohio, to visit relatives. From there she will journey to New York where she will have headquarters for a month making excursions to Boston, Detroit, Philadelphia and Chicago. Her itinerary will include a descent of the St. Lawrence river visiting the larger Canadian cities including Montreal and Quebec. Miss Folz will be accompanied by her aunt, Mrs. Bickham of Los Angeles. There is a possibility she may not return to Glendale as she has been offered a position in New York she may feel inclined to take with her former employer, Elinor Lynton, a short story writer.

## THE RALSTONS

### HOWARD WORKING ON "EMPIRE BUILDERS;" BRADFORD FINISHES WITH "MIDLANDERS"

Howard Ralston, the Glendale boy who was recently seen here in the screen production of Pollyanna, supporting Mary Pickford, has just returned from location at San Mateo. He is working now on Mary Roberts Rinehart's new play, "The Empire Builders," and it will probably be seven or eight weeks before the picture is finished. Summer will probably be here before it is released as there is much to be done after the scenes have been completed. There are two boy parts in the play and Howard has the leading one, in fact, is the only real boy. The other one is taken by a man who plays a boy's part.

Bradford Ralston has just finished a part assigned him in "The Midlanders," one of Bessie Love's pictures which will probably not be released for some time. He was away on location near San Francisco where some of the scenes were taken for a week or more, but his father was with him.

## TRADE CONDITIONS

### JOHN ROBERT WHITE TELLS OF PRODUCTION PROBLEMS IN EAST

Mrs. John Robert White went north the middle of last week to meet her husband in San Francisco and they came home together Saturday night after spending a few days sightseeing and otherwise enjoying themselves in the bay city.

Mr. White is more than usually delighted to get back to California after five weeks on the Atlantic coast and in the middle west. Of the weather he says: "I never remember a time when it was quite so bad on any eastern trip I have taken. People were housed in for a week at a time and the snow was very deep in many places."

It was a business trip pure and simple to buy rugs and other goods for the house with which Mr. White is connected and he found manufacturing conditions no better than last year. Merchandise is very scarce, and prices are higher than ever. Notwithstanding the fact that the weavers who before the war were getting $18 a week are now being paid $60 for the same time, they do not turn out as great a product, he says. He visited one of the mills the latter part of the week. He found quite ideal conditions, the loom rooms, light, airy and warm, and the work not laborious, but he observed that five looms were idle and asked the reason. He was told that the men left on Thursday for a fishing trip and would not be back until Monday. The operators make so much money they do not feel the necessity of putting in full time. For some time it has been impossible to get 36-inch wide rugs. The reason, Mr. White says, is that the weavers prefer to make them 27-inches wide to avoid stretching the extra nine inches. "In every industry it is the same," said he. "Production is only about sixty per cent of what it used

### HIGH COST OF CHURCH BUILDING

Now that the Glendale Presbyterian church has purchased what it believes is a final site for its projected new church it feels that its temporal affairs in that regard are disposed of for the time being although it will continue accumulating a building fund. According to W. J. Clendenin, actual construction is not likely to begin for a period of years or until there is a material reduction of the inflated prices that now prevail for labor and material. He cites the case of Immanual Presbyterian in Los Angeles which had all plans made for a beautiful big church building and has abandoned the project because of the prohibitive cost. Referring to the First Methodist church of this city which cost in the neighborhood of $40,000, Mr. Clendenin said it could not be duplicated for less than $90,000 at this time. "It seems to me good business judgment to wait," he declared.

### LANKFORDS ENTERTAIN ILLINOIS FRIENDS

H. E. Morgan and wife, of Bone Gap, Edwards county, Ill., and Sam Speedy and wife of Hollywood were guests yesterday of A. H. Lankford and wife of 223 North Cedar. Mr. Speedy and Mr. Lankford are brothers-in-law and the Morgans are old neighbors of Mr. Lankford, who also claims Bone Gap as the home of his childhood days, when he roamed the wooded hills and vales along the Little Wabash river. While Mr. and Mrs. Morgan are living temporarily in Monrovia they are greatly impressed with Glendale, so much so that they have subscribed for the Evening News in order that they can learn more about its advantages. Mr. Lankford is quite hopeful of their being his fellow townsmen again.

### BIG SEASON EXPECTED

The management of the Libby, McNeill & Libby canning factory at Burbank is now ready and anxious to have all women and girls who expect to find employment there during the coming season register by calling at the office of the factory or sending in their names and addresses so they can be notified when the season commences.

The plant has been greatly enlarged and remodeled and has been thoroughly modernized by the addition of the latest and best equipment. There will be work for at least twice the workers that were employed last year and the season is expected to last longer.

## TEXAS MAKES PROTEST

### GOVERNOR WIRES WASHINGTON UNALTERABLE OPPOSITION TO MOVEMENT OF MEXICAN TROOPS IN U. S.

(Special Service to Glendale Evening News)

AUSTIN, Texas, April 19.—Texas today voiced a formal protest against any contemplated movement of Mexican troops through its territory. Governor Hobby telegraphed Secretary of State Colby that Texas is unalterably opposed to any such movement.

## TRANSPORTATION APPROACHING NORMAL

### "OUTLAW" STRIKE OF SWITCHMEN SAID TO HAVE LOST EFFECTIVENESS EVERYWHERE

(Special Service to Glendale Evening News)

CHICAGO, April 19.—The second week of the "outlaw" switchmen's strike opened here today with the strikers rapidly losing control and the railroads claiming a sixty per cent of normal situation. Union officials and railroad managers today declared the strike had practically lost its effectiveness. A substantial increase in in-bound and out-bound freight has been noticed, the railroads said.

SAN FRANCISCO, April 19.—Nearly normal traffic conditions prevailed throughout California today with the lifting of the embargo on livestock and perishable freight. San Francisco and Los Angeles are the only two coast cities still handicapped by the switchmen's strike, according to an announcement by James H. Dyer, general manager of the Southern Pacific railroad.

## BROTHERHOODS GIVEN CLOSED SHOP

### RAILROAD LABOR BOARD DENIES A HEARING TO THE "OUTLAW" STRIKERS

(Special Service to Glendale Evening News)

WASHINGTON, April 19.—Jersey City's outlaw railroad strikers today were denied a hearing by the railroad labor board. This was under a rule adopted by the board which requires workers with a grievance to first try to settle it in a conference with their employers. The ruling states emphatically that the board will refuse to hear grievances where this provision has not been complied with. The board members said the Esch-Cummins law under which the board was organized, provides for this. The rule would tend to prevent workmen from bringing their grievances unless they belong to established unions and brotherhoods. This is because the railway officials so far have refused to deal with the outlaw strikers. Under this situation the established railroad brotherhoods are practically given a closed shop on the railroad systems of the United States. In disputes where workers are refused a conference by railway executives, they cannot bring their grievances before the railroad labor board because of the rule.

## PRESIDENT WANTS "WILSON MAN"

### RUMORED HE WILL ENTER CAMPAIGN TO ASK DEMOCRATS TO NOMINATE LEAGUE CANDIDATE

(Special Service to Glendale Evening News)

WASHINGTON, April 19.—A dramatic eleventh hour reappearance of President Wilson in the political arena is being planned, according to an insistent report in circulation among Washington politicians today. The plan is said to be to have the president suddenly spring into the campaign, probably late next month. One of his first acts would be to send a message to Congress asking it to remain in Washington for the summer and pass legislation which he would urge. Should such a program be carried out it is expected the message would be followed by a public appearance of the president and a speech by him. The plan, according to these reports, would be carried out to give force to a demand to be made by Wilson that the Democratic Convention nominate a candidate to run on a league of nations platform and follow up the achievements of the administration and promising to carry on its policies, in other words, "a Wilson man."

## COLORADO BLIZZARD

### TRAINS STALLED; MILK DELIVERIES PREVENTED; FOOD SUPPLIES CUT SHORT

DENVER, April 19.—A two-day blizzard which tapered off here this morning in a light snowfall after bringing all steam railroads in Colorado to a stand-still, was reported to be sweeping northwestern Nebraska and Wyoming today. A dozen passenger trains have been stalled, some since Saturday afternoon. Milk deliveries in Denver have been impossible for two days. Thousands of homes are short of foodstuffs.

## DR. MARKOE'S SLAYER FROM ENGLAND

NEW YORK, April 19.—Thomas W. Simpkin, the escaped lunatic, who shot and killed Dr. James M. Markoe during services in St. George's Protestant Episcopal church yesterday, came to this country five years ago from England to kill J. Piermont Morgan, according to the story he told Assistant District Attorney O'Shaughnessy today. O'Shaughnessy reported the interview to the magistrate when Simpkin was arraigned and held without bail on charges of homicide.

## A STUBBORN FIRE

### HOUSE AND GARAGE AT 117 S. JACKSON CONSIDERABLY DAMAGED

An alarm of fire at 10 this morning sent the fire department to the rear house at 117 South Jackson St. where the garage and house were both blazing fiercely. It was a simple matter to extinguish the flames in the garage, but they had crept up the south wall of the house and into the attic so it was necessary to chop several holes in the roof in order that streams of water could be played on the fire. After a stubborn fight of nearly half an hour the flames were subdued after several hundred dollars' worth of damage was done. The furniture was nearly all gotten out uninjured. The fire started from a small trash fire which had been left unwatched. The house, which is one of four rooms and comparatively new, was bought about two months ago from Mr. Ambrosini by F. L. Woolard and wife. They had a small insurance on the place.

## WEDDING TOURISTS

### MR. AND MRS. JESSE SMITH HAVE A WONDERFUL MOTOR TRIP

Mr. and Mrs. Jesse Smith returned Saturday night from their motor wedding trip and in spite of the fact that it was his honeymoon Jesse has a very definite idea of where they went. He says it was the most wonderful trip he ever took and that he will never forget it. For one thing they had no auto trouble. As he expressed it: "We had only to put in gasoline and oil and keep going." From here they drove to Santa Barbara where they spent several days at The Ambassador. From there they drove to Paso Robles, then to Monterey and on to San Francisco where they spent several days and where they met A. W. Dickinson, who formerly resided in Glendale. He is representing the Marshall Field Company there and doing very well. He has the pleasantest possible recollections of Glendale and wished to be remembered to all his friends here.

Mr. Smith says he found business excellent everywhere he went and a great deal worse than here, i. e., way of garages and residences. Housing conditions in San Francisco are a great deaol worse than here, i. e., there is more congestion. One-room apartments are bringing $40 and $50 per month, Mr. Smith declares.

From San Francisco they motored to Sacramento where they visited the Capitol, then went to Stockton, Modesto, Merced, Fresno, Madera, Bakersfield and on home over the Ridge Route. They found the roads in fine condition on both the coast and inland routes except for three or four miles of temporary road between Bakersfield and the top of the Ridge where the highway is not completed, also in three or four small towns where streets within the city limits have not been paved.

It is pleasant to know that in all their travels they failed to find a small city that in their eyes was equal in attractions to Glendale. In spite of the good time they had, they are well pleased to return and take up the pleasant task of furnishing and settling their home at 411 Fairview avenue. They expect to be ready to receive their friends there some time between the first and the fifteenth of May.

### FRANK MUHLEMAN EN ROUTE

Frank Muhleman, retiring president of the Board of City Trustees, who went east five weeks ago to try three different cases in courts of the middle west, is on his way home. He expects to reach Glendale Tuesday and will be a happy man when he again sees the familiar hills which look down upon the jewel city. He has encountered snow storms, severely cold weather, and barely missed being caught in the tornado which struck the northwest corner of Chicago. His first objective was a small town in Minnesota. After trying a case there he went to Chicago where a week was consumed in the trial of a case which he won, and from there went to Indianapolis. Finding the Indiana case would not come up for several days he ran down into Kentucky and visited relatives at Newport. He has not said what luck he had in the Hoosier courts and it is plain from his letters that his mind is quite as much occupied with California and his family as it is with legal affairs.

## AMERICAN LEGION

### REGULAR MEETING LAST FRIDAY NIGHT WELL ATTENDED

The semi-monthly regular meeting of the American Legion was held Friday evening, with quite a number of members present, all very enthusiastic. The total number of members is over 150. The Athletic Committee reported the games scheduled for week-ends, and a baseball league is being formed in Southern California among American Legion Posts. The Social Committee reported that arrangements for the next dance were being rapidly brought to a conclusion, and a real jazz band orchestra will furnish the music. The local post of the Legion endorsed the bonus plan as presented to Congress by the State and National organizations which gives to ex-service men an option on one of four propositions: First, $2 a day for each day in the service, to be used in the purchase of a home; second, $1.50 a day for each day in the service, to be used in the purchase of a farm, with the understanding that the government will furnish a loan for the purchase of equipment; third, $1.50 a day for vocational training; fourth, $1.50 a day for each day in the service. The ex-service men to have the option of changing to any one other. The men who have any one of these will have an option on one of the remaining.

A number of unique expressions of thanks for the use of the American Legion hall which was open to the 11th cavalry were reported. It was announced that the Women's Auxiliary of the Glendale Post of American Legion will use the Post hall for their organization on Tuesday evening.

A number of very interesting communications from the state headquarters were read. One of these warned American Legion members against a team of discharged soldiers who are touring the western states "belittling and desecrating the uniform by wearing it to arouse sympathy of the public in general to the purchase of unofficial and fake pamphlets, magazines, etc." The war and navy departments are opposed to any such misuse of the uniform, the American Legion is opposed to it and the public should not encourage it, is the conclusion of writer of the communication.

### LEAVE FOR NEW JERSEY

William Shea and his daughter, Lila, of 1608 South Brand boulevard left Sunday, via Santa Fe, for New Jersey, in the expectation of being gone about six weeks. They will make stops en route making quite a stay in Arizona. Another daughter of the house, Mrs. Blanche Shea Starr, is expected to arrive from the north about June 1st to join her sister, Mrs. Bennett, and will probably be here to welcome the travelers.

### GLENDALE HIGH BEATS MONROVIA HIGH AT TENNIS

Coach Hayhurst accompanied the G. U. H. S. tennis team to Monrovia Saturday for a tournament with the High School team there. Glendale won every set and nearly every game, the final score being Glendale 17, Monrovia 0. This is the fourth tournament won by Glendale this season and none have been lost. Two more are to be played. The members of the Glendale team are Tom Morgan, Malcolm White, Wilbur Johns, Ben Marsh and Andy McDonald.

## MISS VIRDEN HURT

### AUTO ASCENDING MT. WILSON FALLS OFF GRADE WHEN ENGINE KILLED

Miss Ione Virden of 335 Mira Loma avenue was very seriously hurt in an auto accident on Mount Wilson yesterday. She and Walter Fishel were going up the mountain in a machine when the engine went dead and the auto started to run backward down the steep grade. Before the brakes could be applied sufficiently hard to check the car it had gone over the side and fallen some distance down the mountain side. Miss Virden's back was badly wrenched, her face cut and internal injuries suffered. She was taken to a Pasadena hospital and her mother went over to be with her as soon as she got word of the accident. Mr. Fishel was not hurt beyond a few bruises.

## CUT DOWN COST OF DOING BUSINESS

It is very essential in these times of high cost of production to use every means possible to cut out the unnecessary expense of doing business. It has become a settled fact that small orders for merchandise can not be handled at a price proportionate with the big order price. Purchasers are advised to buy staple articles in large quantities and thus save the extra labor required to prepare the small orders for customers.

The cost of labor has justly advanced to such an extent that the profit on small sales of merchandise is consumed in the price paid to the clerk or helper for making the sale and preparing the article for delivery to the customer.

## ONE DAY AT A TIME

One day at a time! That's all it can be;
No faster than that is the hardest fate,
And days have their limits, however we
Begin them too early and stretch them too late.
One day at a time! A burden too great
To be borne for two can be borne for one;
Who knows what will enter tomorrow's gate?
While yet we are speaking, all may be done.
One day at a time! 'Tis the whole of life!
All sorrows, all joy, are measured therein,
The bound of our purpose, our noblest strife,
The one only countersign, sure to win!
One day at a time!
It's a wonderful rhyme;
A good one to live by—
A day at a time!

—Helen Hunt Jackson.

## Cannery Workers, Register at Once!

All women and girls who wish to work in the Libby Cannery at Burbank, are requested to register at our office. Outsiders can mail name and address.

No children under 14 allowed to work. But we have made provisions to have competent persons to take care of the young children while the mothers are at work.

On the first of March Libby, McNeill and Libby started the erection of new buildings necessary to make the plant more modern and sanitary, also to more than double the capacity. And before many months, the old saying that "Mighty oaks from little acorns grow," will truly be exemplified in the history of the canning business in Burbank.

We are anxious to have every woman and girl employed by Hinckley Beach Co. to report for duty again, and we can use many more.

Manager Gasman, who has always been with large city establishments is wondering where the help is coming from to operate this plant to capacity.

The success of this plant in no small measure is up to the efficient help in this neighborhood. Show your willingness to do your duty. We promise fair and courteous treatment.

to be and the workers are getting 85 to 150 per cent more pay. The pay would be all right if they would turn out as much as before. They see the manufacturers raising the price and the merchants coming to buy and they go on a strike and demand 30, 40 or 50 per cent more pay. If they find the mills have sold all the goods they can turn out for the next six months at a certain price, they demand higher wages. Then the mills in turn tack that onto the price of the goods, and the consumer pays it all. We thought six months ago prices had reached the peak but they are now 10 to 15 per cent higher."

In view of the shortage of production Mr. White characterized the overall and denim shirt fad to reduce the cost of living as silly. Said he: "If all the people who can afford to buy and wear woolens buy overalls, what will the working men do? The supply is limited at $4 to $5 per pair and if everybody buys them they will go up to $6 and $8.

"These factory operators," Mr. White said, "are spending their money as fast as they make it. All the silk shirts and furs are being bought by people who cannot afford to buy them. On the other hand the people whose incomes are derived from stocks and bonds at 4 per cent are getting the equivalent of only 2 per cent in purchasing power. They are not buying extravagantly. It is an entirely new class that is doing the spending.

Mr. White was fortunate in reaching New York just after 1200 bales of Oriental rugs—a deferred shipment which had been held back since before the war on account of unsettled conditions and the risk caravans run of attack by roving bandits for lack of protection. They represented a value of about $4,000,000 and some of them were very fine, Mr. White says. He also got some Chinese rugs that had just come in that were very rich in blue and gold coloring. "No one seems to be able to use blues as well as the Chinese," he declares, adding that these rugs are in the same class with the Oriental rugs, as they are made on hand looms.

Speaking of conditions abroad, Mr. White said: "About twenty of the largest buyers for some of our American stores went to England in search of goods. They came back empty handed. Conditions there they found as bad or worse than here. They could get nothing for 1920 delivery. They were taking orders for 1921 'at value.' Their operatives are not willing to put in a full week nor to work more than six or seven hours a day."

Touching on politics, Mr. White said that although he personally is a Lowden man believing that the Illinoisan would give us the kind of a good, practical business administration the United States needs, he could not help being struck by the talk he met everywhere about Johnson of California. "They do not seem to care much about Hoover," he said. "They want an out and out fighting party man that stands for a certain thing and knows all the time what he is for and what he is against. And everybody is for the Republican party. I did not meet a single man who would admit he was going to vote the Democratic ticket. They are going to vote for the Republican nominee and do not care who he is."

## HEART FIRES

### PASTOR OF FIRST PRESBYTERIAN CHURCH PREACHES ON FUNDAMENTALS

At the Presbyterian Church Sunday morning, the minister, Rev. W. E. Edmonds, preached upon the subject, "Keep the Heart Fires Burning," taking for his text the 24th chapter of Luke, 32d verse. Said he:

"Here is the story told only in Luke of the two disciples journeying up to Jerusalem, seven miles distant. One of them was Cleo, the name of the other unknown. It is a wonderful story; their hearts were filled with discouragement, they had seen the final suffering of the Master, had witnessed the piercing of His body with the spears and seen the death agony of the Cross. They were overtaken by a stranger, one who appeared to be unfamiliar with the tremendous events which had occurred in Jerusalem within the last few hours, and had therefore doubtless came from a distance; for what other than such a traveler could have been in ignorance of the mighty events by which Nature had protested against the crucifixion? Arrived at their room, as true hosts they invited him in and as a true guest he accepted and entered their humble home, where He was made known to them in the breaking of bread.

"Here is the application of the text: If Jesus is invited He will enter, but there are some conditions. He does not force Himself upon us, He comes gladly, but there must be a preparation made for His coming; there may have to be a house cleaning; some things may have to be thrown out, and this house cleaning means repentance. We must repent of our sins, and cast them out. He says, 'Behold I stand at the door and knock.' If we open and allow Him to enter our homes our hearts will be purified.

"We use certain methods to keep the physical fires burning. Indifference to these things means suicide; we feed the intellectual fires, the social fires, the business fires, all of these must have our attention, there is no debate over the necessity of keeping them all going. But how about the spiritual fires? The physical and the mental and the social are only the temporary parts of man—the real man in spiritual. To be consistent we must keep the spiritual fires burning first of all; for however strong you may be physically, if the spiritual fire is not nourished you die like a brute. Therefore it follows that we must keep the religious fires burning. This can be accomplished by using the Bible as fuel, by letting its truths burn in our hearts, by creating in the church a spiritual atmosphere, by making it in truth the House of God, in which can be found at all times the fruits of the Spirit. Sometimes this atmosphere is spoiled by criticism, by the preacher or the congregation, or both, for we are none of us perfect; and this means a cold church. One of the best ways to put out this fire of the Spirit is to bring into the church all the rubbish of criticism and with it smother the Divine Fire. The burning of this spiritual fire means power, warmth and life. The heart must be kept warm, so that we are ready at all times for good works. Now the question comes home: What have you done? What are you doing to keep these fires burning? How is the existence of this spiritual fire in your heart manifested? How much sacrifice are you making?

"Remember the example of these two disciples; they had come to the end of their journey as they had planned it; it was night when they might usually look upon the day's work as ended, but that did not prevent them from putting on their sandals again and immediately starting back through the darkness to again go over the seven miles on foot to bear the wonderful message to their brother disciples whom they had left in their grief, to take to them the wonderful message that they had seen the risen Lord. Keep the heart fires burning; do your religious duty; do something always for God."

## BAPTIST CHURCH

### MEN HAVE FULL CHARGE OF SUNDAY EVENING MEETING

Sunday, April 18, was a great day for the First Baptist church of Glendale. The morning service was made specially interesting by familiar hymns and a beautiful anthem, and Pastor Ford's thoughtful sermon on "What Brings Results."

The evening service was in charge of the men of the church and they made of it a notable meeting.

Roy L. Kent presided and the men occupied the front central part of the auditorium. A male chorus of 18 members assisted greatly in the musical part of the program. After a prelude by the Sunday School orchestra, a hymn was sung, then Glen Ely gave the Scripture reading and R. E. Olin contributed a vocal solo. Prayer was offered by Rev. J. H. Rowe, and then the chorus sang a hymn, after which there was a 4-minute talk by R. O. Wildman. After a cornet solo by Mr. Elliott and the offertory by the orchestra, a quartet number was given by Messrs. Olin, Gray, Wildman and Walker. Then followed the sermon on "A Great Opening," by the pastor. A hymn by the chorus closed the program.

## "ONE BODY"

### REV. CLIFFORD COLE DECLARES CHURCH MUST TRULY REPRESENT CHRIST

From the text, "All the members of the body, being many, are one body; so also is Christ," Rev. C. A. Cole preached to a large congregation yesterday morning at the Christian church, every available seat being occupied. He emphasized the fact that the church is the counterpart of Christ and is expected to represent Him to the world; that the world seeing the church should see Christ.

That this may be true, the church must more perfectly reproduce the character of Christ, he declared. It must more and more manifest His spirit of love and compassion. It must strive to make His purpose the purpose of the church.

In speaking on the topic of "The Christ Garment," last night, the preacher proved that to wear Christ, having "put Him on" as the New Testament states, a Christian wears a garment that is becoming, that distinguishes, that is to be worn on all occasions, and in all places, and that is ever in style.

"You'd better marry me. Eligible men are scarce."

"I suppose I could offer that as an explanation," said the girl reflectively.—Louisville Courier-Journal.

A WORLD
REBUILT

*By the Golden Rule*
*not by the rule of Gold*

THIRTY denominations of the Church are uniting in a simultaneous campaign in the week of April 25th-May 2nd.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

These churches know that the world needs many things; but it needs Faith most of all.

They know that there can be no final solution of our economic problems that is not a spiritual solution, based on the teachings of Jesus Christ and His Golden Rule.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including the church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The budget is large in the aggregate; yet if each person who loves America would increase his contribution by only a few dollars the whole amount would be easily subscribed.

We face the task of rebuilding the world. Let the cornerstone be a strong and vital church in every American community; and the measuring rod by which the builders build must be the Golden Rule.
